

Azerbaijan University Architecture and Construction

Rector, Professor,
Gulchohra Mammadova
www.azmiu-edu.com

The History of the University

Azerbaijan University of Architecture and Construction is one of the premier state-financed institutions of higher education. Founded in 1920 to serve not only Azerbaijan but also the region, as a Civil Engineering Faculty affiliated to Baku State University. With assistance of the national leader of Azerbaiiisan Gendar Aliev In 1975, it started to operate as an independent institute. As a result of its high achievements in producing high quality staff, (for Azerbaijan) it became a University in 1992. In 2000 its name was changed to Azerbaijan University of Architecture and Construction.

University and City

Azerbaijan University of Architecture and Construction is located in Baku, the capital of Azerbaijan. It is situated in the centre of the city. The studying base of the University is being strengthened year by year. Currently, there are 5 study buildings totally 49000 square metres.

Teaching

There are post-graduate courses and doctorate in the University. There are regularly highlighted by the large circulation journals, scientific works: Theory and applied mechanics, Ecology and water supply, and Urbanism.

International perspective

Azerbaijan University of Architecture and Construction has traditionally attached great importance to strengthening international academic exchange and cooperation. The department of Educating Foreign Students and the Preparatory Department for Foreign Students have been established for that purpose. So far, more than 1500 foreign students have completed their education and over 50 foreign students have obtained their doctoral degrees.

Student life

It has 5 separate buildings covering 49000m². A great deal of work has been done to improve the quality of the lecture hall, classrooms, and sport clubs. The departments are equipped with the modern teaching aids and computers to give quality architectural and engineering education.

➡Faculty of "Architecture"

■ Bachelordegree:

1. T. 19.00.00. Architecture

T 19.01.00 Architecture

T 19.02.00 Environment of design of architecture

T 19.03.00 Reconstruction and recreation of architectural monuments

T 19.04.00 The construction of gardens, parks and landscapes

T 19.05.00 City planning

2 H.S. 21.00.00 Design

H.S. 21.01.00 Design (interior and equipment)

H.S. 21.01.00 Design (industrial graphic and advertisement)

■ Master degree:

TM 19.00.00 Architecture

TM 19.00.01 Architecture (architecture of dwellings and plants, city planning, advertisement in city environment)

TM 19.00.02 Design of interior of dwelling and plants

TM 19.00.03 Design of city living areas

TM 19.00.04 Reconstruction and recreation of architectural monuments

TM 19.00.05 Construction of gardens, parks and landscapes

➡Faculty of "Construction"

■ Bachelordegree:

T 20.00.00 Construction

T 20.01.00 Civil and industrial construction

T 20.03.00 City municipality construction and economy

■ Masterdegree:

TM 20.01.01 The theory of building and projecting

TM 20.00.02 Theoretical and practical solution of organization and economy problems in construction

T 20.00.05 Forming of new systems in town-building

➡Faculty of "Water Supply and Systems of Engineering"

■ Bachelor degree:

T 20.00.00 Builder

T 20.02.00 "Hydrotechnical Building"

T 20.04.00 "Land reclamation, building of engineering systems".

T 21.00.00 "Building of engineering systems and plants"

T 21.01.00. "Heat, gas supplies and ventilation"
T 21.02.00. "Water supply....."
T 01.00.00 "Ecology and use of nature"
ET 01.07.00 "Protection and complex use of water supplies",
ET 01.06.00 "Land-reclamation, recultivation and protection of ground".
37.00.00 "Building of engineering arrangements in oil-gas industry specialty the
specialists
T 37.01.00. "Building the sea oil-gas hydrotechnical arrangements" professions are
trained.

■ **Master degree:**

TM 20.00.03. "River and underground hydrotechnical building"
TM 20.00.04. "Lake and waterways hydrotechnical building"
TM 20.00.07. "Building of land reclamation's engineering systems"
TM 20.00.08. "Exploitation of land reclamation's engineering systems"
TM 21.00.01. "Systems in building of ensuring microclimate"
TM 21.00.02. "Heat gas supplies of populated area"
TM 21.00.03. "Providing of populated area and industrial enterprise"
TM 21.00.04. "Water removal and sewage treatment"
ETM 01.00.00. "Ecology and use of nature"
ETM 01.00.11. "Protection of waters and their use in a complex"

➡ **Faculty of "Transportation"**

■ **Bachelor degree:**

1. T 22.00.00 On the direction of transport building
1. T 22.02.00 Road and airport construction
2. T 22.01.00 Railway structures and facilities
3. T 23.03.00 Bridge and tunnel construction
II. T 10.00.00 Transport exploitation and on land transport means
1. Organization of traffic roads
III. T 24.00.00 On the direction of geodesy and mapping
1.T. 24.01.00 Applied geodesy
IV. AT 05.00.00 On the direction of soil structure and soil cadastre
1. AT 05.03.00 City cadastre

■ **Masterdegree:**

TM 22.00.00 Construction of transportation
TM 22.00.03 Planning of automobile roads construction exploitation
TM 22.00.03 Construction of bridges and other engineering faculties and
exploitation
TM 22.00.06 Construction and exploitation of transport tunnels and underground
TM 24.00.00 Geodesy and mapping
TM 24.01.00 Applied geodesy
TM 10.00.00 Traffic roads

➡ Faculty of "Building technology"

■ Bachelor degree:

T 23.00.00 Technology of construction materials and products
T 23.01.00 Construction materials, products and production of structures
T 23.02.00 Technology of tree manufacturing
T 23.04.00 Hard melting nonmetals and silicate materials technology
TT 17.00.00 New material technology and material science
TT 17.01.00 New material technology and material science (in construction)
T 28.00.00 Technology of much useful materials
T 28.14.00 Flowerpot glass materials technology
T 34.00.00 Emergency situation and security of human life activity
T 34.01.00 Security of life activity (in construction yard)

■ Masterdegree:

TM 23.00.00 Technology of construction materials and products
TM 23.00.01 Technology of construction materials and products
TM 23.00.02 Construction materials products and saving of raw materials and ecology
TM 23.00.03 Technology of tree manufacturing
TM 23.00.06 Technology of hard melting nonmetal and silicate materials
TM 34.00.00 cases and security of life activity
TM 34.00.01 Security of life activity (in construction yard)
TM 09.00.00 New materials technology and materials science
TM 09.00.01 New materials technology and materials science scientific investigation work (in construction yard)

➡ Faculty of "Construction economy"

■ Bachelor degree:

I. II 02.01.00 on direction of "Engineering economy and management"
1. 1102.01.00 Economy and management of production and service fields (Construction areas and management)
2. II 02.02.00 Management (in construction)
3. II 02.03.00 Marketing (in construction)
4. II. 02.04.00 Organization and management of business
II. II 01.00.00 on the direction of "General economy"
1.II 01.22.00 Organization of insurance business

■ Masterdegree:

IIM 02.00.00. Engineering economy and management
IIM 02.00.01. Economy and management of production and service fields (Construction areas and management)

IIM 02.00.02. Organization and management of business
IIM 02.00.03. Marketing (in construction)

➔ **The faculty of "Mechanization and automation"**

■ **Bachelor degree:**

T 17.00.00 Automation and management
TT 06.00.00 Information systems
T 11.00.00 Technological machines and equipment
TT 23.00.00 Mechanization and automatization
T 03.00.06 Power engineering and machine building energy
TT 09.00.00 Physics of materials
TT 29.00.00 Technical maintenance in service
T 17.01.00 Management and Information Science in technical systems
T 29.00.00 Technical maintenance in service
T 03.04.00. Providing of electricity in industries of construction and building materials

■ **Mater degree:**

TM 17.00.00. Automation and management
TTM 08.00.00. Information systems
TM 11.00.00. Technological machines and equipment
TM 03.00.00. Power engineering and machine building energy
TTM 04.00.00. Physics of materials
TM 29.00.00. Technical maintenance in service

➔ **The Construction College under Azerbaijan University of Architecture and Construction**

TT 16.01.01 Information systems
M 21.01.01 Gas outfit system and construction, and explanation of equipments
T 21.01.02 Construction and exploitation of inward sanitary-technical and ventilation ricks
T 20.01.01 Construction of buildings and ricks
T 05.07.01 Metallurgy, technology and equipments of welding production
JJ 02.04.01 Organization and management of business
T 29.07.01 Repairing of transports and service (on automobile)

Annual payment of training (\$ USA)

The list of documents of foreign citizens necessary for reception

- the curriculum vitae
- the letter addressed to the rector
- the diploma (certificate) or its copy certified by a notary's office about end of high school
- the document on points for a selection committee
- the certificate on health
- data on the control over AIDS
- a copy of the passport or the identification card
- 8 photos (3×4)
